

LEECHPOOLCATERPILLAR NURSERY & AFTER-SCHOOL CLUB

SUN PROTECTION POLICY

AIM

It is important to Leechpool Caterpillar Nursery & After School Club that we take every precaution to ensure that each child within our setting is protected from discomfort and sun damage of any form.

TO ENSURE THAT

- No child is over exposed to direct or dangerous amounts of UVA.
- All children are kept hydrated and cool and have shade available to them.
- Parents/carers are aware of the importance of applying sunscreen before arriving for session.
- Caterpillar Nursery keep a bottle of '**Boots Soltan 50+**' sun cream on site and will apply after lunch for all day children. Parents to provide a named sun cream for staff to apply if their child is unable to use Boots Soltan 50+ sun cream.
- Parents and carers are aware that each child should bring a sun hat to every session of the Summer Term, regardless of the weather at the time of arrival.
