

Inclusion

- High Quality First Teaching in class (as much as possible)
- Shared responsibility by all
- Use of Makaton
- Pupil voice
- Respect for all
- Ongoing staff training

Inclusion

at

Leechpool Primary School

Breathing life into learning....to be the best we can be

Individuality

- Individual learning plans
- Adaptations where needed
- Targeted support
- Variety of resources
- Personalised approach

Partnerships

- Regular communication with pupils, staff and parents/carers and families
- Professional agency links such as Occupational Therapists, Speech and Language, School Nurses.
- Local community
- Team approach

Well-Being

- School dog Mabel Hope
- Celebrating the positive for pupils and staff
- Learning Mentors and Emotional Literacy Support Assistant who work with pupils

Leechpool Primary is a mainstream primary school and the SENDCo is Miss Emma Payne (Assistant Headteacher for Inclusion) and she can be contacted on 01403 210233 or email office@leechpool.w-sussex.sch.uk. She has undertaken the National Award for Special Educational Needs Coordination.

We also have a particular duty in ensuring children who are Looked After (CLA) are given the appropriate support and care to ensure they reach their potential. Our designated teacher for Looked After Children is Miss Emma Payne.

The intention of the SEND Information Report is to improve choice and transparency for families.

"All children and young people are entitled to an appropriate education, one that is appropriate to their needs, promotes high standards and the fulfilment of potential. This should enable them to:

- achieve their best,
- become confident individuals living fulfilling lives,
- make a successful transition into adulthood, whether into employment, further or higher education or training.

In July 2022, we undertook a SEND and Inclusion Review from the West Sussex SEND Team which was very positive – please read the review [here](#).

Admissions to our school follow West Sussex County Council's procedures. More information can be found at: <https://www.westsussex.gov.uk/education-children-and-families/schools-and-colleges/school-places/>

Our Graduated Response for Learners

All children at Leechpool are assessed on a regular basis against the Early Years Foundation Stage Curriculum and the National Curriculum. Children that are identified as having a significant difference to the expected age related target are then observed, monitored and assessed individually to identify any specific support that they may require.

Children entering the school (either in Foundation Stage or other years) are assessed by the class teacher and previous records and information are read and taken into account when identifying individual children's starting points. A history of special needs will lay the foundations of the next steps in learning and identifying the areas of support required. Information gained from previous schools or Nursery, as well as from parents, teachers and outside agencies will inform and determine the specific needs.

If a teacher is concerned about an aspect of a child's progress, behaviour or well-being, they will decide what strategies to take within the normal daily classroom routine and record observations and progress through the school monitoring process, informing the parents and keeping them up to date. They will also use West Sussex Ordinarily Available Practice for strategies to use. When a teacher has gathered evidence about a child's learning, progress or attainment they will share their concerns with the SENDCo to discuss further strategies or interventions that could be implemented.

Intervention and Strategy Plans

When it is established that a child is not making expected progress, the class teacher will complete a Nature of Concern form to identify their barriers to learning. This will initially be discussed with parents/carers and will then be shared with the SENDCo to discuss the interventions and strategies to target the pupils' barriers. This is additional to that provided as part of the school's usual personalised curriculum. In some cases, outside professionals from health or social services may already be involved with the child. Where these professionals have not already been working with the school staff, the SENDCo may contact them if the parents/carers agree. The child's class teacher will remain responsible for working with the child on a daily basis and for planning and delivering an individualised programme. Parents/carers will always be consulted and kept informed.

Nature of Intervention

The SENDCo and the child's class teacher alongside parents/ carers will decide on the action needed to help the child to progress. This may include:

- different learning materials or special equipment
- some group or individual support
- extra adult time to devise the nature of the planned intervention and to monitor its effectiveness
- staff development and training to introduce strategies that are more effective
- access to outside agencies for advice on strategies or interventions

Managing pupils needs on the SEND register (SEND Support)

Where progress continues to be less than expected the class teacher, working with the SENDCo, should assess the child's needs. Evidence is gathered including the views of the pupil and their parents /carers alongside class assessments and formative and SEND assessments, where appropriate. The pupil's response to such assessment can highlight their particular needs so they are more effectively targeted. Pupils requiring SEND support will often benefit from the advice of external agencies who may advise and/or undertake specialist assessments to inform the planning and the measurement of a pupil's progress, and in some cases provide support or equipment for particular needs. The triggers for SEND Support will be that, despite receiving targeted support through class based strategies and interventions, the child:

- continues to make little or no progress in specific areas over a long period
- continues to have difficulty in developing literacy and mathematics skills
- has emotional or behavioural difficulties, which substantially and regularly interfere with the child's own learning or that of the class group, despite having an individualised behaviour management programme
- has sensory or physical needs, and requires additional specialist equipment or regular advice or visits by a specialist service
- has an ongoing communication or interaction difficulty that impedes the development of social relationships and cause substantial barriers to learning

When school seeks the help of external agencies, those services will need to see the child's records in order to establish which strategies have already been employed and which targets have been set and achieved. The external specialist may act in an advisory capacity, or provide additional specialist assessment.

Individual Learning Plans

The resulting personal learning plans for the child will set out strategies for supporting the child's progress. These will be implemented via targeted support in the normal classroom setting and sometimes through out of class intervention groups. Details of specific barriers to learning and the associated strategies employed to remove these barriers and enable the child to progress will be agreed in collaboration with the parents/carers, class teacher and SENDCo. The agreed targets will be recorded within an Individual Learning Plan which will include information about:

- the child and the areas they have identified as important
- the strengths and skills they have recently achieved
- a set of short-term targets that detail specific outcomes to be achieved
- the support to be provided, by whom and when
- the next steps
- a running record detailing how the pupil responds to the support
- a review of progress towards the intended outcomes including parent views

Targeted support is provided by Learning Support Assistants to provide the support and intervention necessary for the pupil to access the curriculum fully.

Request for Statutory Assessment

If the child continues to make very little or no progress, the school, through the Headteacher and SENDCo or the parents / carers, may request that the Local Authority (LA) consider carrying out a statutory assessment of the child's SEND. If the LA agrees, it will collect information from all the people who have been involved with the child. From this, the LA decides whether the child would benefit from an Education Health and Care Plan (EHCP) or whether their needs can be met with SEND support.

An EHCP

An EHCP is a legally binding document which sets out the provision the child must receive to meet his/her SEND. Each year the school must hold an Annual Review with the parents and all the outside agencies involved with the child to assess the child's progress. A representative from the LA may attend these reviews. Some children, particularly those with physical disabilities, sensory impairments or serious medical conditions may already have an EHCP when they start in the Foundation Stage class. The same procedures of making provision, target setting and reviewing are put into place as soon as the child starts school. Children with physical or medical needs also require a care plan and, if appropriate a moving and handling plan, drawn up by the school and specialist health professionals.

Criteria for exiting the SEND register

The progress of all pupils is recorded and monitored each half term. Pupils requiring SEND support will have an individual learning plan that is reviewed and updated each term. If this monitoring and planning update indicates that the pupil has made rapid progress and their attainment is no longer significantly below that of their peers, removal from the SEND register will be considered. This review will be completed in collaboration with the pupil, parents, teaching and support staff and the school SENDCo.

Working in partnership with parents / carers

Parents/carers of children with SEND are kept fully informed of the provision that is being made for their children. ILPs are shared with the parents and discussed termly. The school will always ask permission of parents/carers before approaching other professionals and outside agencies for information about their child.

How we identify children/young people that need additional or different provision

Pupil progress is assessed and monitored by class teachers, the senior leadership team and the SENDCo. Information is collected using various tools including assessing early learning goals, assessing pupil progress through KPIs (Key Performance Indicators), Pre-key stage standards and standard attainment tests. For some identified SEND children, specific assessment adjustments, are actioned to ensure all children have the chance of success.

Individual Learning Plans are reviewed and new targets set each term.

The quality of provision is monitored through a programme of lesson observations, intervention observations and work scrutiny. The progress and attainment of all pupils in the school is recorded and analysed each half term. Class observations of pupils take place, this can trigger further assessments by specialists, including those from external agencies.

We take a holistic approach by all aspects of a child's development and well-being. Our pastoral support arrangements for supporting the emotional and social development of all children/young people, including those with SEND, is set out in our Local School Offer. Our measures to prevent bullying can be seen in our Anti-bullying policy.

Transition

Transition arrangements in joining Leechpool are well planned and both child and parents are supported. Children joining in Foundation Stage are given many opportunities before starting school to familiarise themselves with the school and the Early Years staff such as storytime visits and a teddy bears picnic. Children joining in other year groups may be offered a visit day before they start to familiarise themselves with the school. At any time, additional visits can be arranged if felt appropriate. For children/young people with SEND, we also set up additional transition visits, meetings with secondary schools to speak with key leaders.

Transition arrangements are put in place for pupils leaving Leechpool by liaising with the new school, alerting key staff and agencies as needed.

We supported the transition from local nurseries into our Reception class by visiting the setting, meeting with key workers, carrying out home visits, setting up different transition activities before children started school and meeting with parents. The transition from year 6 to secondary school has been supported through transition meetings between teachers and transition day visits and our Learning Mentor works with pupils in the Summer Term to enable a smooth transition to secondary school.

The Assess, Plan, Do, Review Cycle:

For children/young people on our SEND register, an Assess, Plan, Do, Review cycle is established by the class teacher and the SENDCo in partnership with the child/young person and their parents. To support pupils with additional needs, regular meetings with parents, pupils, staff and relevant outside agencies take place following the assess, plan, do and review cycle. This is in addition to our termly Parent Consultation evenings, Display Evening and parent workshops and open mornings. Please see our SEND Policy for further details. This year, provision made for children/young people on our SEND register has been:

- **Communication and Interaction** – Modelling language, repeating back, use of songs/ rhymes, visual prompts, key vocabulary shared as well as pre-teaching, processing time given, use of names to engage learner, visual timetables, now/ next board, role play, social stories, use of literal language where possible, awareness of environmental barrier to learning (noise, acoustics, voice, temperature, lighting), using simple phrases to communicate instructions, flexible approach to daily transitions, aware of the need for sensory breaks, differentiated tasks, use of alternative methods to communication (Makaton, picture communication) encouraging paired and group work, small group or 1:1 individual language sessions. Support from our Locality SALT team allowed us to support individuals in the last academic year through following intervention plans which are reviewed in a timely manner as well as small groups through intervention groups supporting by SALT team.
- **Cognition and Learning** – use of open ended questions, starting learning experiences with a hook and real-life experience, trips, clear simple instructions given, visual timetables, time to respond to questions, sharing next steps with regular feedback both verbal and written, differentiated work and resources, process praise, building self-esteem through recognition of achievements, assessment timetable including baselining to measure progress, use of concrete resources, target seating, paired/ group work opportunities, use of ICT to support learning (e.g. Nessy, TTRs, individual laptops/ i-pads) opportunities for over-learning, pre-teaching new learning, learning built from given starting points, use of memory aids (alphabet strips, number squares, post its, key word lists), how work is presented (colour, font, size, layout). Support from LBAT team allowed us to support individuals in the last academic year through following intervention plans which are reviewed in a timely manner.
- **Social, Emotional and Mental Health** – in class observations, Learning Mentor support, ELSA support, explicit behaviour expectations, individual risk assessments, friendship groups, mentoring programme, giving job responsibilities, use of ABC charts to track triggers, parent conversations, time set aside to unpick behaviours and analyse what the behaviour is communicating, consistent but flexible approach, monitoring learning needs being met, target seating, being aware of environmental factors affecting individuals,

offering choices, emotional regulation work, transition supports, use of games/ activities to reduce stress, proactive rather than reactive to situations, designated calm areas in classes, restorative practices and positive language patterns, use of comic strip cartoons to support talking/ thinking about incidents, offering time to reflect. Support from ASCT team and CAMHS team allowed us to support individuals. We have also offered half-termly parent workshops to explore Children's Mental Health and Well-being.

- **Sensory and/or Physical Needs** – use of appropriate seating and visual resources, instructions given clearly and at an appropriate volume, checking learners have understood, repeat phrases, ensure face to face interaction occur, visual reinforcements, visual timetables, encourage good listening behaviours, target seating, checking of distractions in environments, regular breaks given, use of Makaton, staff training on Hearing impairment, concrete resources to support learning (wobble cushions, ear defenders, pencil grips, writing slopes, hearing aids), targeted interventions, use of ICT to support learning (speech/ text software, talking buttons) individual accessibility plans as and where needed. Support from OT team and Physiotherapy team allowed us to support individuals in the last academic year through following intervention plans which are reviewed in a timely manner.

Support staff

Every child is an individual and support will be differentiated to meet their needs, with regular reviews. Decisions are then made as to the most appropriate support for pupils given their needs which could include:

- Support in Classroom
- 1:1 Provision
- Small group interventions
- Playground support
- Lunchtime support
- First Aid
- Support for medical needs

We monitored the quality and impact of this support by progress made by our pupils across the school through termly Pupil progress meetings and Annual reviews.

Distribution of Funds for SEND

SEND funding was allocated in the following ways:

- Support staff
- External Services
- Teaching and Learning resources
- Well-Being Provision – Learning mentors across the school
- Staff training

- Life skills programme

Resources and specific equipment are budgeted for and alternative grants are always applied for if available. Many resources needed to support pupils with SEND are already available in school. If a pupil requires a specific resource or piece of equipment that is not currently available this can be acquired by the SENDCo using the SEN budget. If a Health or Education professional assesses that a specific resource or facility is needed for a pupil with an EHCP or statement, the county SEND Panel will consider funding the resource, in accordance with the assessment report to specify what is required and why.

Within the locality, we have bought in additional Speech and Language support and Educational Psychology support. This allows us to train staff in the area of Speech and Language and look at how we can best support pupils in school.

Continuing Development of Staff Skills

Each staff member undergoes a program of continual professional development. This includes INSET training days, performance management reviews, lesson observation, and work scrutiny and staff meetings. In addition, training to meet specific responsibilities and individual needs is offered as appropriate. This includes, Down Syndrome Education, Speech and Language therapy, Dyslexia Awareness, Makaton signing, Autism Awareness, Occupational Therapy. Regular training is available for all staff, as well as 'in house' training opportunities. We have one trained Learning Mentor, one trained ELSA, a numeracy specialist teacher, an IT technician, a PE and Sports Coach, key play leaders and 4 dedicated SEN Learning support Assistants across the school. Recent training for staff has included areas of Speech and Language, dyslexia friendly strategies and autism.

Training this year has included: safeguarding, statutory assessment, inclusion framework, disadvantaged learners, Epi-pen training, emergency first aid, core TA/LSA training, speech sounds, understanding the EYFS reforms.

All staff are trained in Safeguarding Level 1, with nine Designated Leads for Safeguarding.

The Leechpool Governor with a responsibility for SEND and Inclusion will be involved and knowledgeable about individual children and meets with the Assistant Head for Inclusion termly.

Leechpool has a First Aid Coordinator, three fully trained First Aiders and a large team of Emergency First Aid trained staff. We also have three members of staff who are trained in Early Years First Aid.

Key Facts

The national percentage for children at SEN Support for the academic year 2022-2023: 13%

Our school percentage of pupils at SEN Support for the academic year 2022-2023: 10%

The national percentage of children with EHCPs for the academic year 2022-2023: 4.3%

Our school percentage of pupils with EHCPs for the academic year 2022-2023: 3%

What to do if you are concerned your child has additional needs?

In the first instance, speak to your child's class teacher or make an appointment to speak to Miss Payne, the Assistant Headteacher for Inclusion.
